AUTOMATED APPOINTMENT CONFIRMATION AND RECALL REMINDER SYSTEM

Give Patients What They Are Asking For

Save Staff Time and Boost Your Income

Almost every patient has a smart phone in their pocket or purse. Many patients are asking receptionists to receive their appointment confirmations, recall reminders, or statements electronically by email or text.

Now you can with MaxiReminder!

In one click, send personalized reminders to your patients. As they receive the confirmation, they "click to accept" and the color status in your Maxident scheduler is updated automatically. At a glance, you know which patients have confirmed via email without making one phone call!

If you would like to text your patients their appointment reminder, they can reply to the text if they would like! Automatically, the appointment color status gets updated in your appointment scheduler! This is the advantage of a fully integrated appointment confirmation system!

SAVE STAFF
TIME & BOOST
YOUR INCOME

Send Patient Statements via Email and Save!

Cut administrative and postage costs by electronically automating patient statements and send them electronically using MaxiReminder. No more labor costs to print, stuff, mail statements or buy supplies. Also, cut out ever increasing postage costs! MaxiReminder Statements is a real time and cost saver!

A Real Time Saver

Your staff will be able to do more for your practice than taking several hours daily to make appointment confirmation calls, send out recall reminders, or send out patient statements manually. Your staff save time and you save cost.

Keep Your Chair Full and Reduce No Shows

At any point in the day, you know which patients have confirmed electronically. Those that still require a phone call, or have not responded to an automated reminder will get a call. Therefore, you will have the control to keep your chair full and reduce no shows.

Brand Your Practice

Add your practice colors, or logos, tag lines or promotions with ease! You can add a MaxiReminder template to keep your branding consistent. Ask us how!
