POINT OF SALE PAYMENT INTEGRATION

MaxiDent™ Introduces MaxiCharge™ payment integration with Chase Paymenttech!

MaxiDent has partnered with Chase Paymenttech to develop a fully integrated payment processing module to streamline payment processing in your office.

MaxiCharge simplifies payment processing to make day-to-day activities more efficient and balancing activities a thing of the past!

MaxiCharge is a fully integrated payment processing module to process credit cards and Interac®. MaxiCharge reduces your merchant costs, instantly increases your profitability, and eliminates the need to double enter payments!

Here's how it works!

- » Simply insert the chipped card into the merchant machine.
- » MaxiDent will identify what type of card it is, (VISA, MasterCard, Interac) automatically.
- » Once the transaction is approved, the approval number is printed on the MaxiDent receipt.

**BENEFITS
YOU WILL
GAIN**

In addition, here are just a few of the extra benefits you will gain:

1. Your day-end and month-end bank deposit will balance automatically.
2. No more payment entries in your POS system, then into MaxiDent.
3. 100% PCI-Compliance and increased security.
4. Dedicated Chase Paymenttech Business Relations Manager.

Internet connectivity is required.
